Please find below and/or attached an Office communication concerning this application or proceeding.

## Office Action Summary

Application No.

10/069,276

Applicant(s)

GOEBEL ET AL

Examiner

Jack Chiang

Art Unit

2642

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 27 June 2005.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

- 4) ☒ Claim(s) 11 and 13-20 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 11, 13-20 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some \* c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
  - ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- \* See the attached detailed Office action for a list of the certified copies not received.

### **CLAIMS**

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 11, 13-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Imai (EP 0704446 A2).

Regarding claim 11, Imai shows a telephone comprising:

A first part (101);

A display and input device which is configured as a touch screen (103), the touch screen (103) occupies substantially an entire surface of the first part (101) (see also 103 in fig. 1b);

A second part (102) which has a first operation position covering the screen (fig. 5a), and a second operation position exposing the screen (fig. 2);

The second part (102) comprises a telephone receiver (speaker holes in fig. 5a) and additional input parts (104 in figs. 2, 5a).

Regarding claims 13-19, Imai shows:

The touch screen (103);

the mechanical keypad and its pressure pin (104);

the recesses (spaces for keys 104 in fig. 5b);

a phone input mode (fig. 5a);

Art Unit: 2642

the input keypad (104) is independent of the touch screen (103) (note: 103 and 104 are physical independent elements);

a pivot (hinge connecting 101, 102);

the first exposed displaced position and the second covered displaced position (figs. 2, 5a);

a transparent window (109); and

a change-over switch (106, 107).

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 20 is rejected under 35 U.S.C. 103(a) as being unpatentable over Imai in view of Iwata et al. (US 5646649).

Regarding claim 20, Imai shows an input pin (105).

Imai differs from the claimed invention in that it does not explicitly mention that there is a recess for holding the input pin.

However, if a device needs an input pin (stylus pen), then it is most likely that the device would have a recess for holding the input pin, because the input pin needs to be stored away after finish using it. This is also taught by Iwata, such as the input pin (50) and the recess (51).

Hence, if it is found that Imai does not have a recess for the input pin (105), then it would have been obvious for one of ordinary skill in the art to modify Imai with a recess for holding the input pin with/without the teaching of Iwata, because the input pin needs to be stored away, and it is commonly seen that devices having an input pin usually have a recess for holding the input pin.

### **ARGUMENT**

5. In response to the remarks (pages 5-7), in page 5, applicant argues that Imai does not disclose “a display and input device ..., a second part .... a telephone receiver and additional input parts”. According to applicant’s argument, Imai does not show anything related to the claimed invention. The examiner disagrees. These claimed limitations have been identified in the rejections above.

In pages 5-6, applicant further argues that “while the first part (101) of the Imai telephone, as a whole, may cover the touch screen, the disclosed telephone receiver itself does not substantially cover the entire surface”.

First, applicant wrongly identifies Imai’s first part (101). The touch screen (103) is built into the first part (101), not the first part (101) covering the touch screen, it is a second part (102) covering the touch screen (103). Second, claim 11 recites that “*the second part of the housing comprising a telephone receiver ...*”. That is all it is claiming regarding the telephone receiver, and Imai anticipates this claimed limitation.

In page 6, applicant further argues about ... large active surface (touch screen). This is shown by Imai, in which the touch screen (103) has a large active surface.

Art Unit: 2642

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Chiang whose telephone number is 571-272-7483. The examiner can normally be reached on Mon.-Fri. from 8:00 to 6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ahmad Matar, can be reached on 571-272-7488. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
